

FETUNA

SEMI-CASSETTE AWNING
WITH RETRACTABLE ARMS AND SQUARE BAR

The quality and aesthetic design of Fetuna makes it ideal for a wide range of use. Thanks to its large projection it's perfectly suited for commercial purposes such as shading restaurant gardens and terraces.

The construction consists of a cassette without a back profile, retractable arms, a fabric roller tube and a control mechanism. The inclination of the arms can be set in the range from 5° to 35°. The awning can be installed on the wall or ceiling.
