

SIRIUS

HORIZONTAL AWNING
WITH RETRACTABLE ARMS AND SQUARE BAR

Simple, elegant design and easy installation makes Sirius an awning popular with both domestic and commercial properties.

The construction consists of a supporting square bar, retractable arms, a fabric roller tube, front profile and a control mechanism. The inclination of the arms can be adjusted between 5° and 40°. When retracted, the awning can be protected by a hood. Wall or ceiling installation is possible.
